THE FLY BANQUET

EDITOR A. L. HORTON of the Vegreville Observer wrote an amusing editorial in last week's issue of his newspaper that reminded us of a situation we faced a few days ago. The article so completely touched our funny bone that we reprint it for the amusement of our readers.

"The Fly Family (Musca domestica) held a convention in the Observer office on Friday of last week. Delegates from all the Musca lodges in North Alberta were present, some lodges sending their entire membership. Fraternal delegates were one bumble-bee and one horse-fly.

"The Observer welcomed the convention gladly, since the flies were the only customers which came into the office that day. To show our appreciation, we got some langloids, and invited them to try their luck with it. Hundreds did and immediately went into a fit of diatom tremors. This was not quite enough either, so we secured some cocktails—always expected at any banquet—and we handed them a most generous supply, which they appreciated fully—many of them being unable to move afterwards and being accordingly swept under the desk to recover.

"Altogether, the convention was quite a success from every standpoint and all the Muscas promised to be back again next year."

HARVEST DEFENDS UPON WEATHER

CITIZENS of the Province have been disillusioned on so many occasions during the past six weeks or two months that they are becoming accustomed to the sudden changes of weather they have been experiencing. In the north-eastern part of the province, where harvest is usually late, approximately seventy-five per cent of the crop has been gathered in and stored by the farmers. Here in the southern portion of the province, old man weather has stacked the cards in a different manner, and mixed the rain with his sunny days.

Farmers of the district cannot remember a fall with such a mixture of climatic conditions. In the course of a few days they see rain, sunshine and frost. Crops are only partially harvested—when this will be finished depends upon the weather. For the past few days the sun has been shining and crops should dry sufficiently to permit threshing to again commence this week-end. On previous occasions this fall, farmers have waited several days, and had to hold up after two days work due to rain. It is to be hoped that this time they may see the fall work completed—then let it rain.

ADDITIONAL STORAGE SPACE WELCOMED

THE ANNOUNCEMENT made last week that additional storage space had been secured, as being provided by the two elevator companies operating in Bassano came as welcome news both for the farmer and business man of the district. The storage situation at this point began to look serious, as quota deliveries climbed and grain filled the elevators. Both companies reported that they were nearing their maximum capacities, and still more room had to be made for grain not harvested up to the time.

Now that one company has already completed arrangements for an additional storage space of twenty thousand bushels, and the other company has announced that construction of a forty thousand bushel annex will commence immediately, farmers may rest assured that they may hold their full quota to the companies and receive the cash with which to carry through the winter. Financing has proven the obstacle to be overcome in harvesting the 1940 crop, and for a time there was the possibility that elevators would become plugged, and late harvesters would have to sit back and wait until room became available before they could market their produce.

"FOREIGN TRADE." Those who believe that foreign trade makes a country prosperous should take a lesson from the war in Europe. When the exports (bombs) exceed the imports the other countries are ruined and when the imports are greater than the exports, the home country suffers. —Harris News.

FIRE PREVENTION WEEK—OCTOBER 8th to 12th

BY PROCLAMATION of His Excellency the Governor General of Canada, this week, October 8th to 12th, has been set aside as Fire Prevention Week. This week provides an annual occasion to impress upon the public consciousness the enormous cost of the fire waste, to the end that conditions may be improved and fire casualties reduced.

The world has passed through a year of the second Great War and we have all read accounts of the devastation and havoc that has been wrought by means of incendiary and high explosive bombs and we are shocked by the details of such accounts. Yet in the twenty years since Fire Prevention Week first established in Canada, this country has recorded more than 800,000 fires involving a property loss of over \$726,000,000 and a loss in human lives of more than 7,700. Our complacency in this respect is only matched by the complacency with which we watched Hitler attain power.

Fire is no respecter of persons. Every man has a responsibility to wards his neighbors and that responsibility should cause every right-thinking person to pause and consider what he owes the community in which he lives. We owe it to ourselves but in a greater degree to our fellow-citizens to permit no condition to exist upon our premises that will invite a visitation of fire. A great majority of fires are so easy to prevent that it is certainly a moral crime to tolerate the things which bring them about.

Cities and towns, like individuals, reap what they sow. To permit the erection of fire-traps, to fail to provide an abundant and reliable water supply and means of using it or to fail to apply the everyday rules of fire prevention, is to constantly face a menace of heavy fires and sweeping conflagrations.

Why tolerate a condition which not only levies tribute upon life and property but in effect imposes an added cost to the conduct of every feature of business activity and increases the burden of the people in providing the necessities of life.

We cannot afford to go on and be indifferent to it all. Fire Prevention Week is a particular week set aside to call attention to the menace of fire. And just as we must throw our whole strength against the forces which aim to destroy our liberty, so should we be prepared to battle that other terrible enemy—Fire.

The Dominion Fire Prevention Association in co-operation with

Unknown Army

Welded by a fierce love of freedom and bitter hatred of Germany, there is an army of unknown men today who are part of the forces defending Britain. Their names are never made public, their pictures cannot appear in any newspaper or magazine, and even their families, in many instances, do not know what has happened to them in recent months.

They are the "free" men of the countries subjugated by the German conquest. They are linked to the women of Canada by a bond created by need, because these men were provided with clothing from Canadian Red Cross stores at a time when they arrived in Britain after the evacuation of Dunkirk. Socks, sweaters, mufflers, and capotes other articles were distributed to them when they flooded into coastal points, some of them almost naked because they had run out from shell-pocked beach-lines of them with any reserve of woollens to face blustering weather.

They are the men of the army of Free France, of the Polish Legion, of the Netherlands Army under Prince Bernhard, and of the Belgian, Norwegian, and Czech forces which had fought in France and continued to fight for Britain. Because thousands of their relatives still live under the shadow of the Gestapo in occupied countries, they are the "unknown" men who cannot be named in innocent persons. Only their commanders, like Gen. Charles de Gaulle and a few of their officers, are known.

British army stores, despite efforts to keep them replenished, were wiped out by the demands of British troops evacuated men. Into this emergency condition stepped the Canadian Red Cross, in response to Britain's call, and opened its warehouses. Typical of the materials supplied were these: 40,000 hand-sewn, 5,000 personnel jackets, 10,000 pairs of socks, 25,000 dressings, 5,000 sweaters, 45 cases clothing, and much more. All this went to unknown men.

In a terse communication, issued as they were assembled in a football stadium along the south coast of England, a French general, lying on a stretcher with both legs broken, issued his first statement: "It summarized the story of the unknown soldier."

"We shall be nameless and free. We are simply acquitting a debt to Britain by sacrificing everything for her—even our families, in return for the thousand years of happiness and security she had given our forefathers."

That is why the story of the army of the unknown is never told in pictures.

MAKEPEACE

NINE LOCAL MEN ATTENDING CAMP AT RED DEER

Local Businesses Operating Short-handed During Absence of Employees.

Nine Bassano and district boys left by Greyhound bus on Tuesday morning of this week for Red Deer, where they will attend the thirty days Military Camp set up by the Dominion Government. In Canada, thirty thousand young men between the ages of twenty-one and twenty-four are attending camps in thirty-nine centres across the Dominion.

All of the local boys have been employed in Bassano and district, and will resume their positions when camp is over. During their absence, employers will operate either short-handed, or with substitutes temporarily taking their places.

The nine boys are: Gordon Smith of Roy Smith's Garage; Clifford Johnson of the Recorder staff; Bill Snape, lineerman for the E.D. Nickel; Nicky, clerk at Joe Johnson's General Store; Bob Patterson, teller in the Royal Bank; Buster Marriott, C.P.R.; Watchman; T. Goldring, teacher at Latham; and Joe Balowicki and T. Balowicki, both of Bassano.

OPEN SEASON ON ANTELOPE OCTOBER 15th TO 30th.

Season Closed in Eastern Irrigation District: Game Reserve

No antelope shooting within boundaries of the Eastern Irrigation District will be allowed this year, although there will be a two week open season in the balance of Southern Alberta, according to the regulations issued by the Provincial Game branch. Elsewhere in the southern part of the Province the season will open October 15-30, and each hunter will be allowed to kill one animal, either male or female. Special permits may be obtained from R.C.M.P. or from salaried game wardens at a cost of \$3 for residents and \$12.50 for non-residents. Few permits will be granted owners of occupation of one-quarter section of land to take one antelope.

Hunters must not shoot antelope within occupied fenced lands, cultivated land or land adjacent to buildings without first securing the consent of the owner or occupier of such land. They must use only soft-point ammunition and observe the customary regulations concerning carrying loaded rifles in cars and using auto to run down the antelope.

The use of a shotgun is prohibited during the open season on the animals. Licenses may be procured from Const. M. L. Allen of the local detachment R.C.M.P., together with a copy of regulations concerning hunting of antelope in the district.

INTER-SCHOOL SPORTS IN BASSANO OCTOBER 18th.

Local School Lacking in Material Principal States.

The annual fall Track Meet of the Eastern Division of the Bow Valley Track and Field Association will be held in Bassano in a little over a week, on October 18th. School participating will include Brooks, Husar, and Bassano, with numerous rural schools taking part. The fall meet is held to determine which students of the eastern division will compete at a spring meet between the eastern, central and western divisions of the association. Schools from communities in the Strathmore-Namaka district, and Gleichen-Arrowood district make up the western and central divisions respectively.

Mr. Moore, principal of the local school, reports that athletic events is lacking in Bassano this year. In previous years, Bassano has achieved a reputation for having winning members in nearly all branches of athletic events. It is suggested that local citizens turn out in large numbers, to cheer for the contestants from this point. Support of spectators is a great deal of help in supplying added energy necessary to capture winning points in many of the events.

ALBERTA POOL ELEVATOR SPACE

The building program undertaken by Alberta Pool elevators during the current year, in order that patrons might get additional storage space for their deliveries, was revealed in a radio address given by R. D. Purdy, general manager, last week.

The program provided for added space of some 84 million bushels of grain, and was as follows: Four twin elevators. Twenty-one cribbed annexes. One hundred and forty balcony-type annexes.

The country elevator system, numbering now 424 houses, with the additional annexes can accommodate 23,000,000 bushels of grain. Three terminals operated, two at Vancouver and one in conjunction with the Manitoba Wheat Pool at Port Arthur, provide space for about 8,000,000 bushels. The total capacity of the entire Alberta Pool system is thus approximately 32,000,000.

"HUMANITY HAS STRUCK ITS TENTS."

At one stroke the thousand-year-old British Constitution was abolished by the British House of Commons...

It was done by the passage of an act that could be placed on a sheet of notepaper.

In a few hours the capitalistic organization of society was undermined.

Profit as a motive in human association was suspended.

Labor relinquished cherished rights and privileges as its contribution.

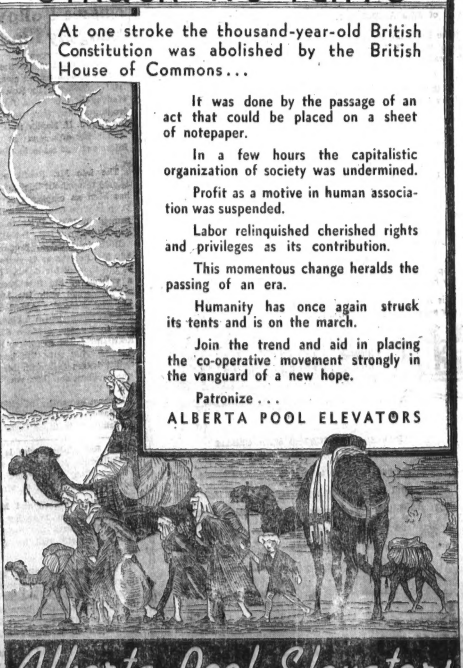

This momentous change heralds the passing of an era.

Humanity has once again struck its tents and is on the march.

Join the trend and aid in placing the co-operative movement strongly in the vanguard of a new hope.

FIRE DESTROY TRUCK

NEAR CLINY

Fire totally destroyed a truck and its equipment, valued at approximately \$14,000, one and a half miles east of Cliny on the main highway Monday of this week. Cause of the fire was believed to be a leaky gas line.

The truck was the property of the Halliburton Oil Well Cementing Company. It was one of the most up-to-date in the province for conducting cementing operations in oil wells. Two motors were located on the framework, one for propelling the vehicle, and one for operating a large water pump. All four wheels of the truck were driven from the main motor.

The driver, not noticing the fire until the cab was surrounded by flames, managed to bring the truck to a stop and jump from the seat, saving only his suit-case. Const. Allen of the R.C.M.P. investigated the accident.

OLD-TIME RESIDENT RETIRING

Mr. Bramley, Twenty-Seven

Years in Bassano.

Mr. Bramley, one of the old-time residents of the Town of Bassano, has announced his intention to retire on the fifteenth of this month from active duties.

For the past twenty-five years, Mr. Bramley has been janitor and caretaker of the local Dominion Government Post Office. He came to Bassano when this building was being erected, and assisted with the construction of the magnificent brick building. Following its completion in 1915, Mr. Bramley accepted the position of janitor, a task which he has faithfully served ever since. Mr. Bramley, together with his wife, has resided above the Post Office for the past number of years.

One of Mr. Bramley's most proud duties during his lengthy occupancy of the position, was the hoisting of the Union Jack on the flag pole in front of the Post Office every morning and taking it down every evening. Never did he miss this task.

Mr. and Mrs. Bramley are planning on moving to Calgary in the near future, where their daughter resides. The many friends and acquaintances of the couple in Bassano express regret at hearing of their departure, but hasten to wish them every success and happiness in the future.

F. G. Rebitt Passes Following Lengthy Illness

Funeral services for the late F. G. Rebitt, who passed away at the family residence in Rosemary on Monday of this week, following a lengthy illness, were conducted by the Rev. J. H. Naylor in Brooks on Wednesday afternoon at 2 p.m. Interment was made in the Brooks Cemetery.

The late Mr. Rebitt was well known throughout this district. He has been an employee of the E. I. D. ever since that organization was formed in 1885. Prior to that he was with the C.P.R. D.N.R.

Born in London, England, the late Mr. Rebitt was 44 years of age at the time of his death. He was a veteran of the first great war, having served with His Majesty's Imperial Forces.

About a year ago, his health began failing, and a trip to the famed Mayo Clinic at Rochester failed to restore him.

Besides his wife, the late Mr. Rebitt leaves to mourn his loss a step daughter and three small children.

Deep sympathy of citizens of the Bassano district is extended to the family in their sad bereavement.

Mrs. Ray Fisher, who is living in California, is spending a few weeks visiting at the home of her parents, Mr. and Mrs. G. Morrison.

Mrs. Percy Powell and Miss L. Sandahl left on Thursday morning of this week for the States, where they will visit for a short time.

The Dance Committee of the Board of Trade announced this week that Sonny Fry and His Gentlemen of Music have been engaged to play at the Red Cross Dance to be held on November 19th.

Mr. J. V. Elliott and two sons of Sacramento, California, were visitors at the Harvey Smith home Tuesday. John is a pilot in the American Air Force, stationed at Salt Lake, Utah.

Stores will be closed MONDAY, Oct. 14th OPEN ALL DAY WEDNES., OCT. 16
